

**STATISZTIKUS FIZIKAI
SZEMINÁRIUMOK**

**Henk A. Dijkstra Lecture Series
on Nonlinear Physical Oceanography**

March 1-3, 2012
Room É 4.70

1 March (Thu), 16:15-17:45

The use of implicit models to understand the physics of the climate system

2 March (Fri), 11:15-12:45

A nonlinear theory of Kuroshio path variability

2 March (Fri), 16:15-17:45

North Atlantic Multidecadal Variability: a synthesis view

3 March (Sat), 11:15-12:45

Will the Atlantic Ocean Circulation collapse before the end of this century?
